

MyCollegeRoadmap

Helping parents & students make the right college choices!

THE PROGRAM

My College Roadmap is a step-by-step program designed to assist you in saving money, choosing a major, and landing a good paying job after graduation. The best part is that we work for you and not for the colleges, so we can advise with only your interest in mind!

OUR RESEARCHERS

Our researchers have extensive experience in higher education and are experts in financial aid, admissions, academics and many other aspects of college administration. As a result, we know how to answer your important questions about admission requirements, entrance essays, cost estimates, potential financial aid awards, credits, campus safety, and much more!

Only **28% of college bound students ever graduate.** Academic, financial and personal problems prevent many worthwhile students from achieving their academic goals. **Our mission is to help you overcome potential obstacles and increase the likelihood of being successful in achieving both your educational and future employment goals!**

1

STEP 1

Following a FREE CONSULTATION, you begin the process by taking a state of the art vocational interest assessment that plays a pivotal role in determining the career path that best fits you.

2

STEP 2

Using an interview and questionnaire designed to be completed by the student and parent, we help you find a college or university that suits your needs and will lead to attractive job opportunities.

3

STEP 3

We research universities and provide you with total costs, likely financial aid benefits, payments after graduation, and potential salaries. In addition, access to a legitimate scholarship application website is available.

Having experience running colleges, we know how to deliver the products that students and employers demand!

WHAT COMMON QUESTIONS CAN WE ANSWER?

- What are the entrance requirements to the colleges I am interested in?
- Do I have to know what career I want to pursue in order to enroll in college?
- What happens if I don't declare a major?
- I plan to transfer to a university. How do I know if my credits will transfer?
- How do I find out about life on campus and how much it costs to live there?
- If I decide to change majors at the same school, how will I know if all of my credits will be transferred between programs?

Who we are?

The parent company of My College Roadmap, *Quantum Educational Services*, was founded in 2002 with a focus on developing textbooks, curriculum and faculty training for higher education.

During this time, **we have worked with over 50 colleges**, more than thirty corporations, and numerous students across America.

The QES team has over 150 years, combined, in leadership, management and instruction in higher education. admissions, financial aid, and job placement. To learn more about us and what we do, visit us at **<http://quantumeducationalservices.com>**
